# Oliver Long

## Academic positions

**Max Planck Institute for Gravitational Physics (Albert Einstein Institute) Potsdam**

- Postdoctoral Researcher · Nov 2022 – Present

Modelling of hyperbolic orbits of binary black holes using Effective One-Body, Numerical Relativity and self-force methods.

**University of Southampton**

- Doctoral Prize Research Fellow · Aug 2022 – Oct 2022
- Doctoral Prize Senior Research Assistant · Jun 2022 – Jul 2022
- Research Assistant · Jan 2022 – Mar 2022

Modelling of hyperbolic orbits of binary black holes with back-reaction in the extreme-mass-ratio limit using perturbation theory focusing on calculating the scalar self-force correction to the scatter angle as well as calculating the scatter angle to first-order in the mass ratio.

## Education

**Ph.D. in Mathematical Sciences**, University of Southampton · Sep 2018 – Jun 2022

- Project title: Self-force in hyperbolic black hole encounters.
- Supervisor: Prof. Leor Barack.
- Project: Modelling of hyperbolic orbits of binary black holes with back-reaction in the extreme-mass-ratio limit using perturbation theory focusing on the derivation and development of a model to calculate the self-force correction to the scatter angle.
- Teaching: Running of undergraduate problem classes and helping with assessment.

**MPhys in Physics**, The University of Manchester · Sep 2014 – Jun 2018

- Final degree grade: First-class honours with an average of 80.4%.
- Modules: Gravitation, The Early Universe, Quantum Field Theory, Electrodynamics, etc.
- Master's project: Using Markov chain Monte Carlo methods on power spectra of the cosmic microwave background to resolve various tensions in the data through the use of different cosmological models.

**A levels**, Hereford Sixth Form College · Sep 2012 – Jun 2014

- A2 levels: Physics (A*), Mathematics (A), Chemistry (A) and Biology (A).
- AS levels: Further Mathematics (A).

**GCSEs**, Lacon Childe School · Sep 2007 – Jun 2012

- Eleven level 2 awards including GCSEs in English language and German.

## Computing

- Extensive experience with `Mathematica` including tensor algebra, data analysis and graphics.
- Extensive experience with `C++` including numerical calculations and data analysis.
- Extensive experience with `Python` including data analysis and graphics.
- Extensive experience with Git.
- Extensive experience with LaTeX.

Updated 22nd November 2023.

# Oliver Long

## Prizes

- **Doctoral Prize**, Engineering and Physical Sciences Research Council.                    2022
- **Best Student Talk Runner Up**, 25th Capra Meeting on Radiation Reaction in GR.        Jun 2022

## Invited talks

- "Self-force meets post-Minkowskian in the scattering regime" Gravitational Waves meet Amplitudes in the Southern Hemisphere, International Center for Theoretical Physics South American Institute for Fundamental Research, 24th August 2023.

- "Hyperbolic self-force calculations within a hyperboloidal framework" Infinity on a Gridshell, Niels Bohr Institute, 10th July 2023.

- "Extraction of high-order post-Minkowskian results from scattering self-force calculations" QCD meets Gravity 2022, Universität Zürich, 13th December 2022.

## Conference presentations

- "Comparison of post-Minkowskian and self-force expansions: Scattering in a scalar charge toy model" 26th Capra Meeting on Radiation Reaction in General Relativity, Niels Bohr Institute, 4th July 2023.

- "Self-force in hyperbolic black hole encounters" LISA Symposium XIV, 25th – 29th July 2022. 🔗

- "Self-force in hyperbolic black hole encounters" 23rd International Conference on General Relativity and Gravitation, Chinese Academy of Science via Zoom, 5th July 2022. 🔗

- "Self-force in hyperbolic black hole encounters" 25th Capra Meeting on Radiation Reaction in General Relativity, University College Dublin, 22nd June 2022. 🔗

- "Self-force in hyperbolic binary-black-hole encounters" BritGrav22, University of Glasgow via Zoom, 4th April 2022. 🔗

- "Time-domain metric reconstruction for hyperbolic scattering" 24th Capra Meeting on Radiation Reaction in General Relativity, Perimeter Institute via Zoom, 10th June 2021. 🔗

- "Towards a self-force calculation of the scatter angle in hyperbolic encounters" BritGrav21, University College Dublin via Zoom, 13th April 2021. 🔗

- "Towards a self-force calculation of the scatter angle in hyperbolic encounters" LISA Symposium XIII, 1st – 3rd October 2020. 🔗

- "Towards a self-force calculation of the scatter angle in hyperbolic encounters" 23rd Capra Meeting on Radiation Reaction in General Relativity, University of Texas at Austin via Zoom, 24th June 2020. 🔗

## Conference posters

- "Time-domain metric reconstruction using the Hertz potential" 3rd meeting of the GWVerse COST action, Institute for Fundamental Physics of the Universe, International School for Advanced Studies, 13th – 16th January 2020.

## Other events attended

- Black Hole Perturbation Toolkit Workshop (via Zoom), The Institute for Computational and Experimental Research in Mathematics, Brown University, 25th – 27th July 2022.

- From Scattering Amplitudes to Gravitational-Wave Predictions for Compact Binaries, Universität Zürich & ETH Zürich, 4th – 15th July 2022.

- Advances and Challenges in Computational Relativity Workshop (Online), The Institute for Computational and Experimental Research in Mathematics, Brown University, 14th – 18th September 2020.

- Black Hole Perturbation Toolkit Workshop (Online), Astronomical Institute of the Academy of Sciences of the Czech Republic, 25th – 27th May 2020.

- Kavli RISE Summer School on Gravitational Waves, University of Cambridge, 23rd – 27th September 2019.

- 22nd International Conference on General Relativity and Gravitation and 13th Edoardo Amaldi Conference on Gravitational Waves, Palau de congressos de Valencia, 8th – 12th July 2019.

- 22nd Capra Meeting on Radiation Reaction in General Relativity, Centro Brasileiro de Pesquisas Físicas, 17th – 21st June 2019.

- LISA Waveform Working Group Meeting, Max Planck Institute for Gravitational Physics (Albert Einstein Institute), 13th – 15th May 2019.

- BritGrav19, Durham University, 15th – 16th April 2019.

- Black Hole Perturbation Toolkit Workshop, University College Dublin, 19th – 21st March 2019.

## Research collaborations

**Laser Interforemeter Space Antenna (LISA) Consortium**                Oct 2018 – Present
- Member of the Waveform Working Group and LISA Early Career Scientists (LECS).

**The Black Hole Perturbation Toolkit**                Mar 2019 – Present
- Contributor to the KerrGeodesics package.

**Simulating eXtreme Spacetimes (SXS) collaboration**                Nov 2022 – Present
- Contributor to the Spectral Einstein Code (SpEC).

**LIGO Scientific Collaboration (LSC)**                Apr 2023 – Nov 2023
